Specification

- Each cabinet is expertly constructed using 18mm fine surface chipboard manufactured to EN 312-2:2003 and faced in 80g/m2 melamine providing greater strength and preventing water ingress
- All exposed front edges are lipped with 0.4mm melamine
- Wall units are 303mm deep. All base units are 570mm deep with HDF backs
- Shelves are height adjustable to 3 levels, supported by nylon shelf pegs. Centre support is provided for all units wider than 600mm to prevent shelf deflection
- All legs are constructed from High Pressure Polystyrene with a 35mm adjustment
- There is a 23mm service gap behind all wall units and 65mm service gap behind all base units to provide easy access to plumbing and pipe work
- Hanging brackets have a fully adjustable metal hanging arm contained within a reinforced plastic body
- Colour co-ordinated replacement and gable ends available with every range
- 110,170 clip on 3 way adjustable, nickel plated hinges available and provide wide open aperture and the ability to remove doors for cleaning
- Drawer boxes are epoxy coated metal with 15mm MFC base and back panels
- Soft close doors and twin skin full extension soft close drawers available as upgrade
